

Strategic Review of Mental Health Services

Client: Manchester Joint Commissioning Executive (JCE)

Lead contractor: Health and Social Care Advisory Service

Description

We analysed mental health service provision in Manchester to support the JCE in developing a strategy to meet the needs of the population. Services provided The health economic component included: an assessment of population needs, taking into account deprivation and epidemiology; analysis of service utilisation and resource investment.

Highlights

We raised the level of consensus on evidence and priorities in an area that had previously been contested.
