

Financial Evaluation of proposed new Private Hospital

Client: Private Investor Group

Lead contractor: Crystal Blue Consulting Ltd

Working with: Langan and Schrøter

Description

Our clients required an independent evaluation of their plan to develop a new private hospital in London. The project involved the creation of a fully costed model of the development, the hospital's proposed operation and potential revenue streams, taking into account the catchment area and competition analysis.

Services provided

Research, economic/financial & competitor analysis, benchmarking & interpretation, medium and long term financial forecasting, presentations to the investor group, report writing.

Highlights

We provided information on risk, payback period and competition that enabled the client to make a decision about future investment.
